Environmental Policy

Interbiz

Environmental care is a Interbiz business value and builds on environmentally sustainable principles and requires a continuous work to reduce the Interbiz environmental footprint. Interbiz believes in a proactive environmental work with preventive actions and takes an active approach regarding environmental legislation affecting our business. Interbiz should apply best practices in products, processes and new construction to protect the environment.

Environmental Improvements

Product innovation and environmental improvements shall be driven by market expectations, our customers' requirements and legal obligations. Interbiz strives for exceeding the expectations by developing products with less environmental impact during the use phase of the product and believes that high environmental performance doesn't conflict with product quality, performance or safety.

Design for Environment

Interbiz shall develop future-oriented products with reduced environmental impact and improved environmental performance throughout the product's life cycle, including procurement, manufacturing, distribution, use and disposal.

Clean Production Chain

Interbiz shall apply clean production processes including waste minimization, substitution of hazardous substances and reduction of emissions into land, air and water, as well as noise.

Efficient Transportation

Interbiz shall prioritize use of transportation with less environmental impact, from purchasing to distribution, including load optimization.

Resource Conservation

Interbiz shall optimize the use of energy and limit the exploitation of resources such as land, water, material and chemicals including reusing and recycling where applicable, and select energy providers with due consideration to their environmental impact. This environmental policy is adopted by Interbiz Management, October 2013. The Environmental Policy is based on the environmental responsibility according to Interbiz "Code of Conduct". The Group is committed to comply with applicable legal requirements and other requirement. The Environmental Policy applies to the Interbiz as a company , as well as to its suppliers and other contractors.
